

## Recombinant Biotinylated Human FGFR2 alpha (IIIc) Protein,His-Avi Tag

### 产品信息

产品名称	产品编号	规格
Recombinant Biotinylated Human FGFR2 alpha (IIIc) Protein,His-Avi Tag	93417ES60	100 µg
	93417ES76	500 µg

### 性能参数

<b>表达区间及表达系统 (Source)</b>	Recombinant Biotinylated Human FGFR2 alpha (IIIc) Protein is expressed from HEK293 with His tag and Avi tag at the C-terminal. It contains Arg22-Glu377.[Accession   P21802-1]
<b>分子量大小 (Molecular Weight)</b>	The protein has a predicted MW of 42.5 kDa. Due to glycosylation, the protein migrates to 70-80 kDa based on Tris-Bis PAGE result.
<b>内毒素 (Endotoxin)</b>	Less than 1EU per µg by the LAL method.
<b>纯度 (Purity)</b>	> 95% as determined by Tris-Bis PAGE > 95% as determined by HPLC
<b>制剂 (Formulation)</b>	Lyophilized from 0.22µm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.
<b>重构方法 (Reconstitution)</b>	Centrifuge tubes before opening. Reconstituting to a concentration more than 100 µg/ml is recommended. Dissolve the lyophilized protein in distilled water.

### 储存条件

The product should be stored at -25~-15°C for 1 year from date of receipt.

2-7 days, 2~8 °C under sterile conditions after reconstitution.

3 months, -25~-15°C under sterile conditions after reconstitution.

Recommend to aliquot the protein into smaller quantities when first used and avoid repeated freeze-thaw cycles.

### 注意事项

- 1.Please operate with lab coats and disposable gloves,for your safety.
- 2.This product is for research use only.
